

## Plastic Wall Fans with Shutter (Reversible)

Ventilating capacity up to 1200cmh. Quiet operation with its low noise level. Easy maintenance with normal cleaning from time to time. Small and compact design. Light weight and easy to install.

Fan casing, blades and cover are made of injection moulded plastic. The motors are single phase shaded pole type, 240V 50/60Hz. Electrical insulation is class B suitable for ambient temperature up to 40 degrees Celsius.

Pressure (pa)

### Characters:

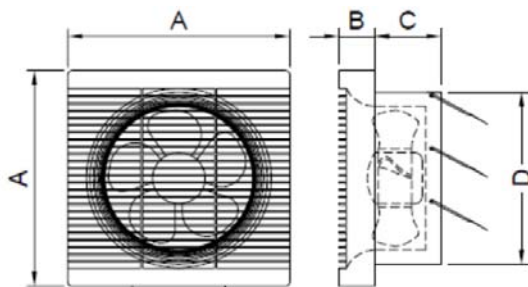

- + High airflow and quiet
- + Easy installation for wall mounted
- + PP plastic body and shutter
- + Silicon steel motor with built-in thermo cut-off protection, class B insulation
- + Moisture resistant, suitable for humid and damp environment
- + Operating in temperatures ranging -14°C to +40°C
- + Easy Maintenance
- + **On, reverse and Off operated by pull cord switch**

### Specification

Model	Exhaust (cmh)	Intake (cmh)	Power (kw)	Speed (rpm)	Rated Voltage (V/ph/Hz)	Insulation Class	Sound (dBA)
VF-AB6R	330	265	0.025	1400	220~240/1/50	B	45
VF-AB8R	520	415	0.028	1300	220~240/1/50	B	48
VF-AB10R	860	690	0.036	1100	220~240/1/50	B	51
VF-AB12R	1200	860	0.048	1050	220~240/1/50	B	55

### Dimensions (mm)

Model	Diam (mm)	A	B	C	D	Wall Opening	Weight (kg)
VF-AB6R	150	225 x 225	48	75	193	195 x 195	1.8
VF-AB8R	200	295 x 295	48	85	242	245 x 245	2.2
VF-AB10R	250	345 x 345	48	90	290	295 x 295	2.5
VF-AB12R	300	400 x 400	48	95	345	350 x 350	2.8

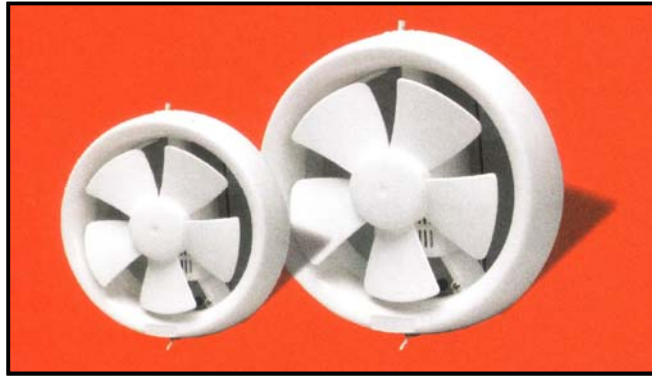

### Color

Blades	White
Casing	White
Shutter	Grey

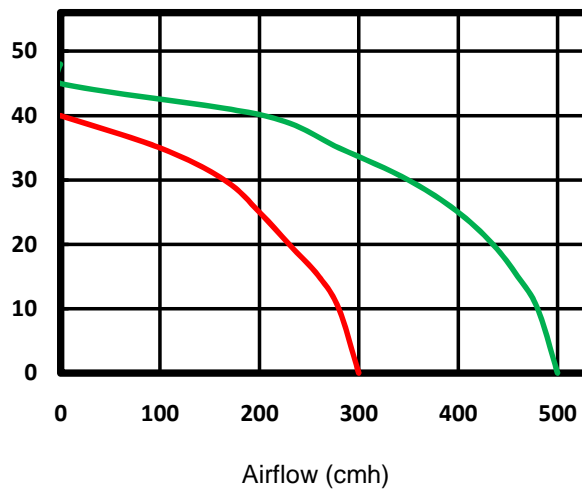

Ventilating capacity up to 500cmh. Quiet operation with its low noise level. Easy maintenance with normal cleaning from time to time. Small and compact design. Light weight and easy to install. Fan casing, blades and cover are made of injection moulded plastic. The motors are single phase shaded pole type, 240V 50/60Hz. Electrical insulation is class B suitable for ambient temperature up to 40 degrees Celsius.

**Characters:**

- + High airflow and quiet
- + Easy installation for glass
- + PP plastic material
- + Silicon steel motor with built-in thermo cut-off protection
- + High glossy surface
- + Class B insulation
- + Moisture resistant, suitable for humid and damp environment
- + Operating in temperatures ranging -14°C to +40°C
- + Easy Maintenance

Fan to be install on glass panel.

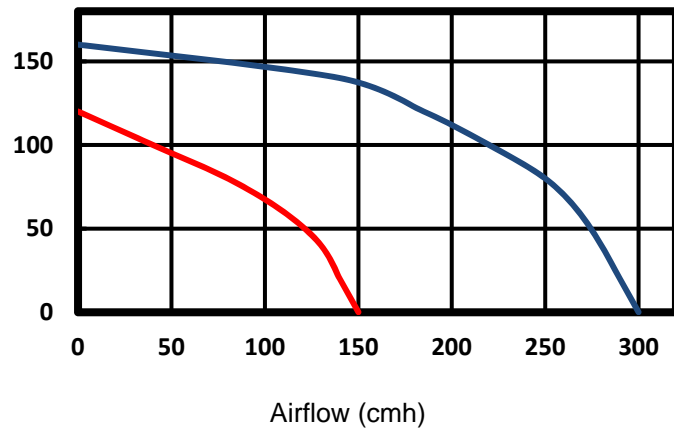

Ventilating capacity up to 300cmh. Quiet operation with its low noise level. Easy maintenance with normal cleaning from time to time. Small and compact design. Light weight and easy to install. Fan casing, blades and cover are made of injection moulded plastic. The motors are single phase shaded pole type, 240V 50/60Hz. Electrical insulation is class B suitable for ambient temperature up to 40 degrees Celsius.

**Characters:**

- + High airflow and quiet
- + Easy installation for ceiling mounted
- + PP plastic material
- + Silicon steel motor with built-in thermo cut-off protection
- + Class B insulation
- + Moisture resistant, suitable for humid and damp environment
- + Operating in temperatures ranging -14°C to +40°C
- + Easy Maintenance
